

Bike or motorcycle holder for a phone Dudao F7C (black)

Ref: 6973687247386

Bike or motorcycle holder for a phone Dudao F7C (black)

Bike or motorcycle mount

The mount is the ideal solution for those who want easy access to their smartphone while riding a bike or motorcycle. It allows you to use your devices safely and have them always at hand. Thoughtful design provides comfort and full control in any situation.

Easy installation and versatility of the mount

Installation of this mount is extremely easy and fast. All you need to do is attach it to the handlebars with special clamps. You can do it yourself in a few moments. The mount is compatible with different types of handlebars and grips, making it versatile and easy to customize.

High comfort of use

One of the most important features of this mount is that it can be rotated. This allows you to freely adjust the viewing angle of your device for optimal screen readability. Regardless of the lighting conditions and the angle of the light, you will be able to use your device freely without worrying about limited visibility.

Compact design and solid stability

The design of the mount is solid and sturdy, providing stability and security. Made of high-quality materials, the mount is shock and

vibration resistant, minimizing the risk of accidentally dropping your device. Even when driving on uneven terrain or with major vibrations, your phone will remain securely and stably placed in the holder.

A practical solution for mobile users

This is an indispensable accessory for active people who want to use technology on the go. It provides convenience, ease of use and security, while being durable and sturdy. Whether you're a bicycle enthusiast or a motorcyclist, this mount will meet your needs and make it easy to use mobile devices during outdoor activities.
