

Fetch Stick Insta360 GO 3

Fetch Stick Insta360 GO 3

Ref: 6970357855315

Insta360 GO 3 dog toy with camera mount

Capture a whole new perspective with the Insta360 pet toy! The accessory with a selfie stick design was created from non-toxic rubber and allows you to securely mount the GO 3 camera, allowing your dog to create footage that you have remote control over thanks to the Action Pod (within 5m). The camera's built-in FlowState stabilization and 360 Horizon Lock ensure that the image doesn't shake, and you can see the world from your pet's perspective!

Doubly safe

The toy is made of non-toxic BPA-free rubber, giving you peace of mind that your pet can safely hold it in its mouth. What's more, the rubber construction keeps the camera protected from damage, so you can let your dog play freely with no worries, during which GO 3 will record his doggy life!
