Socas D3 sonic toothbrush (pink)

Take care of proper oral hygiene with the Soocas D3 sonic toothbrush. The device works at a frequency of more than 38,000 vibrations per minute and allows you to choose from 4 available modes. It also offers a smart timer, and has a run time of up to 180 days. You'll also find a toothbrush sterilizer included to get rid of harmful germs. The toothbrush is also distinguished by its IPX8 water resistance, low noise level and original design.

Beautiful smile for longer

The D3 sonic toothbrush will allow you to get rid of dirt and all food debris even from hard-to-reach places that a regular toothbrush can't reach. The device is equipped with a powerful motor that generates vibrations at a frequency of more than 38,000 times per minute. The high vibration ensures thorough, fast cleaning and allows you to achieve 7 times more effective plaque removal. With Soocas, you'll maintain a beautiful, healthy and sparkling smile for even longer.

Smart timer

You don't have to keep an eye on the brushing time anymore - the Soocas D3 toothbrush will do it for you! The toothbrush is equipped with a smart timer that will remind you every 30 seconds to change your oral cleaning area. After 2 minutes, the toothbrush will automatically turn off. This will make sure you brush your teeth long enough!

4 modes to choose from

The D3 model is designed for different usage scenarios. The toothbrush offers as many as 4 modes of operation, so you can match its performance to your needs. Cleaning mode is perfect for everyday use. Are your teeth extremely sensitive? Take advantage of the Sensitive mode. Polishing allows you to polish your teeth, while Whitening will make your teeth even whiter. What's more, the device will remember the last mode you used.

Get rid of bacteria

Take care of your oral health. The kit also includes a UVC sterilizer for toothbrushes. The device removes up to 99.99% of bacteria that accumulate on the brush head. Its operation is extremely simple - just put the toothbrush inside and close the sterilizer door, and the device will turn on automatically. The sterilizer will clean the toothbrush for about 5 minutes. In addition, the device will allow you to store the toothbrush conveniently.

Long working time

Are you worried about charging your toothbrush frequently? Don't be! The device can work for up to 180 days. It will take you about 6 hours to renew the energy in the toothbrush alone, and the USB-C cable included in the package will make charging easy. A special light indicator will notify you of the low battery and charging status. The sterilizer, on the other hand, can serve you for about 30 days, and it takes about 5 hours to charge.

Unique design

The Soocas sonic toothbrush is distinguished by its unconventional, design - the cat-like details are sure to delight lovers of these animals. The device is IPX8 waterproof, so you can freely use it even in the shower. You will also easily keep it clean. You also don't have to worry that the toothbrush will make a loud and tiring sound - its volume level does not exceed 55 dB.
