

Sonic toothbrush with tips set and water flosser Bitvae D2+C

Ref: 6973734200845

Sonic toothbrush with tips set and water flosser Bitvae D2+C2 (black)

Sonic toothbrush with tip set and Bitvae D2+C2 irrigator (black)

Your smile can be even healthier and more beautiful! The sonic toothbrush removes up to 7 times more oral debris than a traditional toothbrush! Bitvae D2 offers 5 cleaning modes, where a smart timer will remind you every 30 seconds to change the brushed area. The device's protection rating is IPX7, and it lasts up to a month! What's more, the toothbrush is recommended by the American Dental Association. In the set you will also find a C2 irrigator, which removes up to 99.9% of plaque. Enjoy comprehensive oral hygiene with Bitvae!

Effective dirt removal

The D2 sonic toothbrush is equipped with a motor that allows it to generate a vibration of 40,000 movements per minute. The DuPont bristle tip is designed to best fit the shape of your teeth, so it removes bacterial plaque without damaging your gums! If you use a traditional toothbrush, with D2 your teeth can be up to 7 times cleaner than before! Enjoy the feeling of perfect freshness! What's more, you'll also find an irrigator that removes up to 99.9% of plaque and food debris, effectively reaching even the most inaccessible places, such as the spaces between braces.

Choose your toothbrush mode

The toothbrush offers up to 5 cleaning modes, so you're sure to find the perfect one for you! The White mode will take care of removing

stubborn stains from coffee, wine, or cigarettes to whiten your smile. Polish mode will further polish your teeth. Clean mode will be perfect for daily care. Are your teeth sensitive or do you suffer from gum pain? Use the Soft and Gum Care modes to gently clean your mouth and give your gums a gentle massage.

An irrigator tailored to you

The Bitvae irrigator can operate in different modes: soft, normal, potent. Soft mode (which generates a water pressure of 50-70 psi) is ideal for people who are just starting out with an irrigator or have sensitive gums. Normal mode (which provides a water pressure of 70-90 psi) is perfect for daily care, providing effective removal of plaque and food debris. While the potent mode (distinguished by a water pressure of 90-120 psi) is an option for those who appreciate intensive cleaning of the oral cavity. Such a variety of modes allows you to customize the operation of the device to individual needs and preferences, thereby increasing the comfort and effectiveness of daily hygiene.

Smart timer - 2 minutes for a beautiful smile

Bitvae D2 is a practical device that will allow you to easily take care of a clean and healthy smile. Equipped with the Smart Timer function, it will remind you every 30 seconds to change the brushed area. After a full 2 minutes, the toothbrush will turn off automatically! This is enough time for the effect of perfect freshness!

Long working time

The toothbrush uses a rechargeable battery, the capacity of which is 350 mAh. It guarantees up to 30 days of work, which also makes it an ideal companion for any trip! This doesn't mean you can't pack the charger with you, which is extremely small and handy, and will also serve as a practical stand for your D2! You can refill the energy of your toothbrush in as little as 4 hours! The irrigator, on the other hand, on one full charge is able to operate for as long as 40 days. In addition, the 300 ml water container provides enough liquid to thoroughly clean your mouth without having to refill it during a single use.

Waterproof

D2 is a practical device that you will take with you wherever you need it. The protection rating of the toothbrush is IPX7. The irrigator, too, is IPX7 certified, which means it is completely waterproof. This means you can use them in the shower or wash them under running water without worry, making it easy to keep the devices clean. Such water resistance also ensures greater safety during use, eliminating the risk of damage from accidental splashes.

Comfort of use

The Bitvae irrigator and sonic toothbrush were created with comfort in mind, so their design is very ergonomic. What's more, the irrigator is distinguished by 360° rotating interchangeable nozzles, which makes its use even more pleasant. In addition, Bitvae equipment will prove useful when traveling, as you can easily fit it in your backpack or larger cosmetic bag.
