Flashlight HOTO QWSDT001, 1000lm, USB-C

Ref: 6974370800055

The HOTO brand is part of the Xiaomi ecosystem.

Flashlight Hoto QWSDT001

Looking for a reliable source of light for any situation? The HOTO QWSDT001 flashlight will meet your expectations. It is light and handy, provides 1000 lm of brightness and its range is up to 200 m. A durable rechargeable battery makes the flashlight work for up to 24 hours on a single charge. It also allows you to adjust the focus of the light and offers 5 modes of operation.

Stable illumination

The HOTO QWSDT001 flashlight uses imported light beads that allow it to shine with a brightness of up to 1000 lm. Importantly, it generates a stable and eye-safe light that does not flicker or tire the eyes. Two buttons (power and SOS) provide convenient operation and allow you to adjust the operating mode to individual needs.

Choose from five operation modes

This handy flashlight will come in handy in many different scenarios. Simply choose 1 of the 5 modes and adapt the type of light to the specific situation. Low light, Medium light, Highlight, Strobe and SOS modes are at your disposal. This way you can use the QWSDT001 to broadcast an SOS signal or scare away a potential aggressor.

Adjustable light focus

The big advantage of the HOTO QWSDT001 flashlight is the adjustable light focus. Focused light with high brightness and range of up to 200 m is perfect for rain and fog, while diffused light allows to illuminate a large area and is useful e.g. during a night hike.

Durable battery

What distinguishes the QWSDT001 flashlight is also its long operation time. The device has been equipped with a 2600 mAh rechargeable battery and can operate for up to 24 hours. What is important, the built-in colorful indicator light will provide information about the current state of battery, and the hidden USB-C port, which is protected against water and dust, will allow you to renew the energy of the device in a convenient way.

Manufacturer

HOTO
