Ref: 817465026441

Polarpro LiteChaser Grip for iPhone 12 Pro

Eight different positions of the LiteChaser Pro series grip provide convenience when recording video. For example, the accessory can be mounted on the front, giving you the ability to film yourself with the iPhone 12 Pro. You can also enable the self-timer function on your smartphone and take photos without using a tripod. With PolarPro's mount, it's also easier to shoot videos and take photos vertically. The product fits the iPhone 12 Pro.

Additional capabilities

There are 1/4"-20 threads on the top and bottom of the mount, use them to gain additional capabilities when shooting. The lower thread, for example, will be used to mount a tripod, and the higher one will allow you to attach a microphone or Bluetooth shutter.
