

Computer Case Darkflash Melody (Black)

Computer Case Darkflash Melody (Black)

Ref: 4710343792451

Computer Case Darkflash Melody (Black)

Create a computer that will impress you not only with functionality, but also with stylish design. The Darkflash Melody case looks really great and offers many expansion possibilities. It was made of high-end materials that ensure its extraordinary durability. It allows the installation of up to 5 fans (not included).

Unique design

What makes the case look so good? Its shape resembles a hexagon, and the combination of iron mesh and painted SPCC sheet gives it a modern character. The side panel is made of dark tempered glass - use RGB accessories (not included) for interesting visual effects!

Solid construction

The case was created from the highest quality materials, making it extremely durable. Its side panel is made of 3 mm thick tempered glass, which is not only extremely solid, but also allows you to look inside the computer. The magnetic design of the top cover prevents dust from getting inside the case, and makes cleaning it much easier.

Efficient cooling

Create your dream computer and don't worry about it overheating. The case offers a high-end internal cooling channel and allows you to

install up to 5 fans. What's more, 2 fan slots are located above the power source cover. So you can enjoy effective cooling and an interesting RGB effect.

Plenty of possibilities

The case is extremely user-friendly and allows you to assemble or expand your computer with relative ease. Among other things, it will accommodate 2 SATA 2.5 drives, a CPU cooler up to 160 mm and a VGA up to 260 mm. It is also equipped with a separate enclosure for the hard drive, which can translate into more efficient performance.
