

Carlinkit U2W Plus wireless adapter Apple Carplay/Android Au

Carlinkit U2W Plus wireless adapter (black)

Ref: 6972185560010

The Carlinkit U2W Plus wireless adapter

Want to enjoy wireless pleasure while driving your car? With Carlinkit it will be possible! The U2W Plus adapter is designed for cars with CarPlay functionality. With it, you will create a space free of tangled cables. What's more, it uses plug&play technology, which makes it convenient and easy to use. And its small size (80×46×13 mm) will make it easy to transport and store.

Wireless power

With Carlinkit you will be able to connect to your CarPlay wirelessly. It shows great compatibility, making it very versatile. What's more, it won't interfere with your vehicle's original functions. You will still be able to control the dedicated buttons on the steering wheel. You no longer have to pull out your phone every time!

Comfort of use

Carlinkit U2W Plus was developed with user comfort in mind. It uses plug&play technology. What does this mean? Just plug the device into your car's USB port, and it starts working right away. And it connects to your phone quickly using Bluetooth 4.1. Online updates are also at your disposal to ensure that your device will always work perfectly.

Thoughtful design

The U2W Plus is both a well-thought-out design and a functional device. It won't take up much space, as it stands out for its compact size (80×46×13 mm). What's more, you only need to connect it once to the device of your choice. What does this mean? When you get in the car again, Carlinkit will automatically pair with your phone. Don't waste precious minutes searching for your device again!
