

Wireless charger 2-in-1 Choetech T603-F, holder (white)

Ref: 6932112104939

Wireless charger 2-in-1 Choetech T603-F, holder (white)

Choetech T603-F 2-in-1 wireless inductive charger, holder (white).

Choetech T603-F is an inductive charger that supports charging two devices simultaneously. Its maximum output power is 15 watts. The charger has 5 charging modes: 15W, 10W, 7.5W, 5W and 2.5W, so it will adapt to different types of devices. It supports the MagSafe wireless magnetic charging function. Another advantage of the charger is its phone holder form, which gives you a firm grip on your device.

Secure grip

The charger, thanks to its design that resembles a standard phone holder, allows you to magnetically attach it to the case of your phone, which you can hold securely thanks to the ring grip. It tilts 180 degrees away from the case, so you can place your phone on a table at a comfortable angle and use your device while it charges.

Magnetic charging

The Choetech T603-F inductive charger allows you to wirelessly charge your iPhone 12 series and above, so you don't have to plug cables into your device - just attach the charger to your phone case. With the wireless charger, you don't have to worry about disconnected cables and intermittent charging. Choetech T603-F fits tightly to your phone, so you can use the device as you are comfortable.

Voltage tailored to your device

To ensure safety and optimal charging, the Choetech T603-F supports 5 charging modes: 15W, 10W, 7.5W, 5W and 2.5W. Each of them supports charging with the appropriate power for the device to ensure fast and safe charging of equipment. The charger is compatible with devices such as the iPhone, AirPods and Apple Watch.
