

Foldable solar charger Choetech SC006 36W 1xUSB QC, 1xUSB-C

Ref: 6971824979411

Foldable solar charger Choetech SC006 36W 1xUSB QC, 1xUSB-C PD (grey)

Choetech SC006 36W 1xUSB QC, 1xUSB-C PD (gray) foldable solar charger.

Choetech SC006 is a foldable solar charger that when folded is very similar to a laptop bag. It features a packable pocket on its case, a convenient handle and hooks that allow it to fold into a handy bag. Inside are solar panels covered with PET material. They are resistant to water, dust and heat, so they will be perfect for traveling. Another advantage is the legs, which allow you to angle the unfolded charger so that sunlight from a particular direction reaches it.

Charging power

The charger has a USB-C and USB3.0 input, and its maximum charging power is 36W. The output power for USB-C is 20W, and the output power for USB-A is 18W. The power conversion factor, in turn, is 23%. The charger is certified by CF, FCC, Rohs thanks to which it is safe to use.

Portability

The charger is very handy when traveling thanks to its clever design and small dimensions-it is 948 x 360 x 5mm when unfolded, and 360 x 195 x 35mm when folded. When folded, the charger looks like a laptop bag, so it is unobtrusive.
