

Gaming headphones ONIKUMA B90 Black

Gaming headphones ONIKUMA B90 Black

Ref: 6972470561562

ONIKUMA B90 headphones (black).

Are you looking for cute headphones with a claw? Do you want to stand out from the crowd and show your personality? Or maybe you love gadgets and want the headphones to match the rest of your accessories? ONIKUMA B90 will do the job perfectly! The black on-ear Bluetooth 5.0 headphones with an in-ear control panel and glowing cat ears on the headband will be a lot of fun. Plus, they're foldable, so they'll fit in your purse, carry-on luggage or school backpack!

The most important features always at hand

ONIKUMA B90 headphones are equipped with buttons located on one of the headphones. From them you can control the volume, switch between songs, pause and resume sound, turn the headphones on and off. In addition, there is also a micro USB charging port, a 3.5mm jack input, a microphone and a light indicator to make using the headphones convenient and intuitive.

Quality and convenience

Made of great quality materials, the ONIKUMA B90 will prove to be a great accessory for watching movies, cartoons or playing games for a long time. The sturdy design is also suitable for use by children, among others, due to its sturdiness and lightness. The earcups of the headphones are lined with a nice-to-touch eco-leather, which will pass even during several hours of play. The ONIKUMA B90 are also a very good solution for studying, as their design dampens ambient sounds and helps you focus.

Excellent sound

The B90s offer excellent sound to make using them as enjoyable as possible, and make every word of a movie or cartoon character understandable. The headphones will work well for prolonged use - the operating time is 5 hours with Bluetooth 5.0 enabled, but they can also be used wired thanks to the 3.5mm jack input.

Joy of use

Another advantage of the headphones is their luminous elements - both the built-in ears in the headband, but also the logos and circles on each headphone glow in RGB colors to bring you childlike joy of owning a cool gadget. For an even better effect, wear the headphones at night and watch the changing colors bounce off the nearest surfaces!

Clear and smooth conversations

The headphone's built-in microphone reduces wind noise and ambient noise to provide high-quality sound when talking with family and friends, meeting with your team or taking online classes.
