

Desktop arm stand Puluz with 26cm LED Vlogging Ring PKT3090B

Ref: 5907489605359

Desktop arm stand Puluz with 26cm LED Vlogging Ring PKT3090B

Perfect light

The lamp is made of energy-efficient LED beads that perfectly reflect natural colors and enhance skin tones in photos. With 3 colors to choose from with adjustable brightness, you can quickly and easily adjust the effect of your photos according to your preference, without using additional color filters. Since the LED lights generate a soft and eye-pleasing light, you won't feel any discomfort even when shooting videos for a long time or conducting photo shoots.

Wide application

You will use the light when taking photos outdoors. The lamp will also perfectly light up the room during photo shoots, shooting for advertising projects or recording vlogs related to fashion and makeup.

Adjustable stand for even more comfortable use

You can adjust the height of the stand, which is also 180 and 360 degree adjustable for even more comfort. It is made of high quality material, making it durable and long lasting. Dual suspension springs on each arm of the boom protect the lamps from sudden falls. In addition, the bracket can be bent freely so that the light falls at an angle that works best for you. The clamp on the base will attach to any thickness of countertop. This way, your hands are free and you can freely record videos.

Compatibility and compact size

With the USB connector, you can charge the lamp with a charger, powerbank, PC or even a laptop. What's more, the lightweight design and compact size allow you to take the flash with you when you travel or take photos outdoors.
