

TESSAN Power strip TS-306

TESSAN Power strip TS-306

Ref: 6975799311856

TESSAN Power strip TS-306

Stock up on a power strip that's great for home, office and more. TESSAN's TS-306 offers up to 6 AC outlets and 3 USB-A ports, allowing you to connect up to 9 devices at once. At the same time, it takes up little space, and if necessary, you can attach it to the wall. The product is also equipped with a practical switch and a long 2-meter cable.

Connect up to 9 devices simultaneously

The TS-306 power strip allows you to seamlessly charge and power up to 9 devices simultaneously - for example, laptops, smartphones or tablets. Thanks to this, it will find use in, for example, the living room, bedroom, kitchen and even in the office. You can use up to 6 AC outlets and 3 USB-A ports - say goodbye to limitations.

Will help you save electricity

Be sure that the strip works only when you really need it. The TS-306 is equipped with a small switch, with which you can conveniently turn the power on and off. This will help you save electricity! The device also has a special built-in light indicator that will provide you with information about its status. When the power is on, it glows with a soft light - with TESSAN you have everything under control.

It won't take up too much space

Thanks to its carefully thought-out design and small size (7.6 x 7.6 x 14 cm), the strip won't take up too much space - it will work well even on a smaller desk. You can also attach it to the wall to save even more space. Its additional advantage is the long 2-meter cable, which provides more freedom.
