

Propeller Guard Sunnylife for DJI Mavic 3 Pro (M3P-KC586)

Ref: 5905316147737

Propeller Guard Sunnylife for DJI Mavic 3 Pro (M3P-KC586)

Sunnylife propeller cover for DJI Mavic 3 Pro (M3P-KC586)

The lightweight and durable covers can completely protect the propellers of the DJI Mavic 3 Pro, increasing flight safety. They will especially work well where there are many obstacles - they will be an ideal choice for novice users.

Unique design

The cover prevents collisions, and any shocks. The reinforced structure supports the arms, providing stability. The closed-circuit structure increases durability during flight. In addition, the shield isolates and protects the propellers from any damage, as well as people and objects in close proximity.

Hassle-free installation

Both installation and removal of the shield is completely hassle-free and convenient. The shield does not affect the drone's light indicator, and the hollow opening gives plenty of space for the propellers and does not weigh down the drone.

□Manufacturer
