

Three-Arm Suction Mount PGYTECH

Three-Arm Suction Mount PGYTECH

Ref: 6970801336445

PGYTECH mount

The mount has 3 arms for greater stability and recording comfort. The top of the product is very easy to mount and rotates 360° so you can capture every detail while recording.

Compatible

With 3 suction cups, the mount is stable and more efficient than Suction Cup Mount. Moreover, the product is compatible with pocket and sports cameras, phones, microphones, etc.

Compact

The mount can be folded very easily because the legs of the product are foldable. In addition, the mount, which consists of 3 prongs, includes a pin so that you can easily hook up or unhook the product from it.

Solid performance

The top of the mount is made of high quality aluminum alloy, making the mount durable and stable.
