

Brushed ESC Hobbywing QuicRun WP 1060 60A

Brushed ESC Hobbywing QuicRun WP 1060 60A

Ref: 6938994413084

Hobbywing QuicRun WP 1060 60A brush regulator

The regulator is specially designed for beginner and intermediate modelers. It is easy to use but at the same time very robust. It is equipped with automatic throttle calibration. The waterproof and dustproof housing will find use in all weather conditions. Drive in water, snow, dust or mud without worry!

Reliable

Reliable hardware combined with advanced software not only ensures high power output but also protects the system from overloads. The QuicRun WP 1060 regulator will find application in many RC vehicles with brush motors. Dedicated for 1:10 scale models.

Manufacturer

Hobbywing

Model

HW30120201

Scale

1:10

Continuous / instantaneous current

- 60A / 360A
- Power supply
- 2-3S LiPo/6-9 Cel NiMH
- BEC output
- Pulse: 6V/3A
