

### Gaming headphones Havit Fuxi H3 2.4G (black)

Ref: 6939119046842

Gaming headphones Havit Fuxi H3 2.4G (black)

#### Havit Fuxi H3 2.4G Gaming Headset (Black)

The Havit Fuxi H3 is a headset with an interesting design, characterized by a low latency of 24ms, so that no opponent can surprise you. Large 40mm speakers provide thrilling experiences while listening to music and gaming - thanks to a 600mAh battery, you can enjoy them for up to 26 hours. The comfortable design padded with soft material and ear pads filled with memory foam will ensure your comfort all this time. Meanwhile, the omnidirectional microphone will perfectly capture your voice, so you can communicate smoothly with your team.

#### Impressive Working Time

The integrated circuit used in Fuxi H3 is characterized by low power consumption and high efficiency, which translates into a long working time of the headphones. The 600mAh battery provides you with 23 hours of operation at 2.4GHz connectivity and 26 hours when connected via Bluetooth, so that Fuxi H3 can accompany you in every game.

#### Custom Dynamic Speakers

The 40mm speakers with a range of 20Hz - 20kHz used in the headphones have been meticulously developed by the Havit team, allowing you to enjoy a custom stereo sound facilitating immersion in music and the presented world.

#### Low Latency

Speed and agility are important traits of every player, just as low latency is an important feature of every gaming headset. The Broadcom integrated circuit ensures a latency of only 24ms, which is comparable to that achieved with wired connectivity. Do not limit your movements and play wirelessly with Havit Fuxi H3!

#### Omnidirectional Microphone

The Havit headphones are equipped with a 360-degree omnidirectional microphone, which you can detach and attach at any time. It connects to the headphones using a 3.5mm mini jack. Communicate effectively with your team thanks to Havit Fuxi H3!

#### Quad Connectivity

Among the advantages of the headphones is also multi-channel connectivity. You can connect devices using the 2.4GHz wireless hardware key USB-C, but also via a cable with a USB7.1 end or a 3.5mm mini jack. However, if you prefer wireless connectivity, you also have Bluetooth to choose from.

#### Ergonomic Shape and Comfortable Materials

The icing on the cake is the ergonomic shape of the headphones and the light weight of 186.6g, which ensure that even prolonged use will be comfortable. In addition, you can adjust the headband so that the ear pads filled with memory foam, covered with breathable material, fit your head as well as possible.
