Gaming Microphone Havit GK61 RGB

Ref: 6939119067557

### RGB Gaming Microphone Havit GK61

The Havit GK61 microphone is perfect for live streaming, singing lessons, online gaming, and other situations that require clear sound. It precisely captures your voice while eliminating unwanted noise and interference. With a resolution of 192 kHz/24 bit, every sound is recorded with exceptional accuracy. The colorful RGB backlight with 11 modes provides amazing visual effects.

### Sound that will impress everyone

The Havit GK61 focuses on recording sound from the front while reducing noise from other directions. This ensures that your voice sounds clear and crisp no matter where you are. It supports high-resolution recording at 192 kHz/24 bit, delivering excellent audio quality that will satisfy even the most demanding users.

### Convenient Operation

Operating the microphone is a breeze. It features 2 built-in knobs that allow you to have full control over the sound quality. A status indicator light will inform you of the device's status - blue means recording, while red means mute. Furthermore, the 3.5mm port allows you to connect headphones to the microphone, allowing you to listen to your voice in real-time.

### Gaming Design

The Havit GK61 microphone will be the perfect addition to your gaming setup. It is equipped with colorful RGB lighting that gives it a unique gaming character. It offers 11 different lighting effects that will help you create an incredible atmosphere during every game.
