Ref: 6939119045722

Havit H2590BT PRO Wireless Bluetooth headphones (red)

Havit H2590BT PRO Wireless Bluetooth Headphones (red)

Enjoy superior HD sound quality. The Havit H2590BT Pro wireless headphones allow you to play music not only via Bluetooth 5.1, but also via a 3.5mm AUX cable or from a micro SD card. They also support FM, and their operating time reaches 3-4 hours on a single charge. At the same time, they are extremely comfortable, as well as durable. They are also distinguished by their foldable design and built-in microphone.

Dynamic drivers and built-in microphone

Discover your favorite songs anew. The headphones are equipped with 40mm dynamic drivers that deliver crystal clear sound and enhanced, deep bass. What's more, the H2590BT Pro's thoughtful design perfectly isolates outside sounds, allowing you to fully focus on the beauty of the songs you're playing. And the built-in microphone allows you to make calls - no more reaching into your pocket for your smartphone.

Long runtime

The built-in 200 mAh battery makes the headphones work for about 3-4 hours on a single charge. If you want, you can also connect them to the device of your choice with an AUX cable and use them wired - that way you'll be sure they won't discharge at the least opportune moment.

Comfort of use

The headphones were created with even the most demanding users in mind. The soft earcups perfectly fit your ears and isolate external noises, allowing you to fully focus on the beauty of music. The headband of the H2590BT Pro can be adjusted to fit your needs. Plus, you can fold them up for easy transport and storage of the headphones.
