Car Charger Mcdodo CC-5670 95W with display

Ref: 6921002656702

Car Charger Mcdodo CC-5670 95W with display

Now you can conveniently charge your devices while driving your car. The Mcdodo CC-5670 charger stands out with a total power of up to 95W and is equipped with 2 ports (USB-A and USB-C), allowing you to easily connect up to 2 devices simultaneously. It also supports various fast charging standards and ensures safe usage. It is also characterized by wide compatibility.

Faster Charging

Planning a vacation? Before you arrive at your destination, your smartphone or tablet can be fully ready to work! The USB-C port of the charger provides a maximum power of 30W, and in the case of the USB-A port, it's up to 65W. The CC-5670 model also supports fast charging standards such as PD3.0, QC3.0, SCP, FCP, and AFC. This means you can quickly charge your phone, portable game console, and even a laptop!

Charge 2 Devices Simultaneously

Traveling with a passenger? Now you can both charge your devices at the same time - with 2 available ports, no one has to wait for their turn. Moreover, the charger stands out with wide compatibility. It works perfectly with smartphones, laptops, tablets, portable game consoles, smartwatches, digital cameras, and more.

Safety Comes First

To ensure your maximum safety, the charger is equipped with multi-level protection, including protection against overvoltage, overcurrent, short circuit, and overheating. The product also features a built-in small LED display, allowing you to conveniently check the battery voltage in real-time. Now you have everything under control!

Attention to Detail

The CC-5670 model stands out with an elegant, minimalist design and is equipped with a metal casing, providing durability and efficient heat dissipation. Moreover, thanks to the thoughtful construction, the device remains stable in place - it can handle bumpy roads or speed bumps without a problem. You can also use the charger in various vehicles without any obstacles - from passenger cars to trucks.
