

Multifunctional Wireless Charger Mcdodo CH-1610

Multifunctional Wireless Charger Mcdodo CH-1610

Ref: 6921002616102

Multifunctional Wireless Charger Mcdodo CH-1610.

The Mcdodo multi-functional charger will not only renew your smartphone's power, but also serve as a night light and alarm clock! It offers charging with a maximum power of up to 15 watts. The lamp emits a soft, warm light that will make your evening book reading more enjoyable. The clock with alarm clock function will allow you to start your day quickly, and the practical stand will make it easier for you to use your phone. Its operation will not be a problem for you, and thanks to its portable, foldable design it will not take up much space.

Wireless charging

From now on, charging your smartphone won't take much time! The charger offers charging with 7.5 watts of power for iPhones and 10 watts for Samsung phones. It supports fast charging with up to 15 watts for other devices! In addition, you can position your smartphone in any position. Vertically or maybe horizontally? The Mcdodo charger automatically detects your device, regardless of its orientation.

More than a charger

The CH-1610 impresses with its multifunctionality. The base of the charger will successfully serve you as a night light, providing gentle illumination, for example, while reading a book in the evening. Its operation is child's play - just touch it to turn the light on or off. However, that's not all! The accessory will also work great as an alarm clock. Set the alarm, and you will be woken up in the morning by a

gently flickering light and sound. Want to prolong your sleep a bit? Touch the base of the charger and the alarm clock will go into snooze mode for 10 minutes.

With attention to detail

The charger was created with attention to the smallest details. It features a small LED display that not only acts as a clock, but also informs about the alarm clock set or the charging process. What's more, the built-in sensor will automatically adjust the brightness of the display to the prevailing lighting conditions in the room. Anti-slip pads provide the necessary stability, and thanks to the foldable design, you can take the charger with you wherever you want.
