Toocki 2xUSB-C + 2xUSB car charger, 120W (black)

Want to improve the comfort of your car trips? With Toocki it will be possible! The car charger offers up to 4 different ports, so you can freely charge more devices. What's more, it is compatible with different fast charging protocols, so it will be suitable for different types of devices. Moreover, thanks to its well-thought-out design, it is safe and very comfortable to use. See what else Toocki can offer you!

Fast and convenient charging

Toocki car charger will change the face of your car trip. With 120 watts of power and as many as four ports (2x USB-C and 2x USB), it can meet all your charging needs on the go. What's more, Toocki can charge your phone to 60% in as little as 30 minutes, making it an ideal choice for those who are always on the go. The built-in display makes it easy to monitor the current charging power, and the 1.5-meter cable length provides added convenience and flexibility. When you choose Toocki, you're betting on speed and convenience.

Wide compatibility

Toocki is a universal device, ideal for a wide range of vehicles. With a DC 12-24V input, the charger works perfectly with both cars and trucks. What's more, it supports a variety of fast charging protocols, such as QC4, QC3.0, AFC, FCP, PD2.0, PD3.0, PPS and PE+1.1. So it's ideal not only for phones and tablets, but also for GPS devices and many other gadgets. By choosing Toocki, you can be sure that your devices will always be charged quickly and safely.

Safety guarantee

With the Toocki car charger, you can rest assured about the safety of your devices. Its special design ensures stable charging, eliminating worries about driving on uneven roads or potholes. In addition, the built-in smart chip effectively protects your devices from various hazards, such as overvoltage, short circuit and overheating. When you choose Toocki, you're investing in technology that cares about your devices as much as you do.
