

## Toocki Charging Cable A-L, 1m, 12W (Grey)

Toocki Charging Cable A-L, 1m, 12W (Grey)

Ref: 6975600789539

Toocki Charging Cable A-L, 1m, 12W (Grey)

Use the USB-A to Lightning cable from Toocki to quickly charge your iPhone or iPad. The product provides an amperage of up to 2.4 A and is equipped with a small display that allows you to check the power in real time. Using it, you will also transfer your files at speeds of up to 480 Mbps. The cable is also highly durable and resistant to damage.

**Short charging time**

Reduce the charging time of your devices. The Toocki cable offers an amperage of up to 2.4 A, so you can charge your tablet or phone very quickly. You also don't have to worry about damaging the battery of the equipment you're charging - a smart chip ensures its safety. The product also has a built-in screen that displays the charging power in real time.

**Fast file transfer**

Now you can transfer your photos or videos between devices much faster. The Toocki cable provides transmission speeds of up to 480 Mbps, so you can copy files in no time. Forget about waiting too long and save time!

**Thoughtful design**

The cable features a reinforced tin-plated copper cable that guarantees stable charging and transmission. The nylon braid protects it

from damage and makes it more resistant to bending or pulling. It is also distinguished by transparent elements that give it an original, modern character.
