Mcdodo CC-5670 75W Digital Display PD 1*USB-A 1*USB-C Car Charger

Ref: 6921002636902

Mcdodo CC-3690 75W 1x USB-A, 1x USB-C car charger.

Stock up on a Mcdodo car charger and be sure your phone is ready for a long trip! The charger has 2 USB charging ports and its maximum power reaches up to 75W. It is compatible with a wide range of popular devices and most vehicles. Advanced chips combined with multi-level protection will ensure maximum safety while charging.

Even greater efficiency

The car charger is equipped with 2 charging ports - USB-C and USB-A, allowing you to charge multiple devices simultaneously. The USB-C port provides an impressive 45 watts of charging power, while the USB-A port offers 30 watts. What's more, both ports support Power Delivery fast charging technology. This will charge your iPhone 14 to 60% or Samsung S21 to 50% in just 30 minutes.

Safe charging

Charge your devices not only quickly, but also safely! The charger is equipped with a number of safety features that effectively protect your devices from potential damage. They provide protection against overcurrent, overvoltage, overheating or short circuits, among other things. In addition, it automatically slows down the charging process when it reaches 80% charge to prevent overcharging while extending the life of your device.

Thoughtful design

The carefully thought-out design ensures that the charger stably stays in the cigarette lighter socket, regardless of road conditions. It is not intimidated by speed bumps or unevenness! The accessory is equipped with a small digital display that monitors the voltage of the car battery in real time. It also stands out for its wide compatibility, so you can use it in different types of vehicles.
