Charger Mcdodo CH-1701 33W with display (black)

Ref: 6921002617017

Mcdodo CH-1701 33W mains charger with display (black).

Are you looking for a charger with which you can renew the energy of several devices simultaneously in a short time? The Mcdodo CH-1701 mains charger is sure to meet your expectations! It supports multiple fast charging standards, and its maximum power reaches 33 watts. It is equipped with a USB-C and USB-A port, which allows you to charge 2 devices simultaneously. Multi-safety features ensure a high level of safety, and thanks to its wide compatibility, you can use it in conjunction with most popular equipment.

#### Fast charging

Don't waste time waiting for your device to be ready to use! The Mcdodo network charger offers charging with a maximum power of up to 33 watts. It also supports multiple fast charging protocols, such as QC3.0, QC4+, FCP, SCP and AFC. All this means that charging your smartphone or other device will only take a few moments!

#### One charger for multiple devices

The CH-1701 is distinguished by its wide compatibility. The charger will be great for charging not only your smartphone, but also your tablet, laptop, wireless earphones or Nintendo Switch console. However, that's not all! It is equipped with 2 charging ports - USB-C and USB-A, so you can renew the energy of several devices at the same time without any problems.

#### Bet on safety

Charge your devices without worrying about damaging them! The charger is equipped with a number of protections, including against short circuits, overheating, overcharging, overcurrent and overvoltage. What's more, it automatically adjusts the voltage and amperage at different stages of charging to prevent damage to your device.

#### Compact design

The charger is equipped with a small LED display that provides real-time information on charging power. The charger's compact design allows it to be plugged into a contact so as not to interfere with other devices. Moreover, it is up to 65% smaller compared to standard chargers!
