

Gaming Microphone Havit GK55 RGB

Gaming Microphone Havit GK55 RGB

Ref: 6939119029647

Plug&Play Microphone Havit GK55

The Havit gaming microphone is very easy to install. Just plug it into a USB port on your computer, select the microphone as an input in the system settings, and you're done, with no unnecessary drivers or software.

Compact size

With its compact size and adjustable microphone neck, the GH55 won't take up much space on your desk and is convenient to use. The GH55 is perfect for playing games, chatting on Skype, or recording podcasts and videos on YouTube.

Perfect Sound

The microphone is omnidirectional, which means the sound quality is better than other microphones. You don't have to worry about distortion or sound dropouts anymore. The GK55 will make sure that your voice is always loud and clear.

RGB backlighting

With the unique RGB backlighting, the gaming experience will be even more exciting. What's more, the microphone's modern design makes it a perfect decoration for your desk.
