

Speakers SVEN MS-304, 40W Bluetooth (black)

Speakers SVEN MS-304, 40W Bluetooth (black)

Ref: 6438162015602

SVEN MS-304 Speakers, 40W Bluetooth (black).

Are you ready to elevate your audio experience to a whole new level? SVEN is launching the MS-304 acoustic system, dedicated to gamers who want a combination of powerful sound and functionality. Combining an aggressive, modern design with advanced technology and comprehensive functionality, the speakers are designed for those who don't want to compromise on sound quality.

Versatility at your fingertips

With the SVEN MS-304, unlimited possibilities are at your fingertips. With support for USB memory sticks, SD cards and Bluetooth technology, the speakers give you the freedom to choose your audio source, allowing you to play your favorite music both from traditional media and wirelessly from smartphones or tablets. In addition, the built-in FM radio will allow you to listen to your favorite radio stations.

Solid construction and modern design

MS-304 not only sounds great, but also looks great. Its solid wooden housing guarantees long life and exceptional sound. And all this in an aesthetically pleasing and modern form with a practical LED display on the front panel, which indicates the current mode of operation of the device.

Convenient control

The ergonomic remote control allows intuitive operation, while the rotary volume control knob on the front panel allows you to instantly adjust the sound level to suit your current needs. With the subwoofer's self-adjusting sound level, you can adjust the bass to your preference, ensuring perfect sound in any situation.

Amazing sound experience

Outstanding 40W power and excellent sound quality make every game more realistic and immersive. SVEN MS-304 excels in deep bass as well as reproduction of clear and detailed treble, making the set an ideal choice for any gamer or music lover.
