

## Speakers SVEN PS-260, 10W Bluetooth (black)

Speakers SVEN PS-260, 10W Bluetooth (black)

Ref: 6438162021337

SVEN PS-260 Speaker, 10W Bluetooth (black)

The SVEN PS-260 speaker will become a source of positive energy in any situation. Its attractive design stands out thanks to its translucent casing walls, which conceal a backlighting system with 12 modes. The 52 mm transducer provides solid sound from 120 Hz to 20 kHz. The unit's power output reaches 10 watts, and its compact design allows for convenient transportation. You'll connect it to a sound source via Bluetooth. You can also connect 2 speakers to amplify the sound, create a stereo effect and impressive lighting. A wired connection is also available. A 2,000 mAh rechargeable battery provides long runtime. The speaker also offers a built-in display that supports files from a USB drive or MicroSD card. You can also listen to FM radio.

### Rediscover music

Take your music experience to a new level. With an impressive speaker output power of 10 watts, every tune gains depth. The extensive frequency range of 120 to 20,000 Hz will make sure you hear every detail - from the lowest bass to the highest tones. The 52mm driver further enhances the sound, creating a unique musical experience. Discover the essence of every song with the PS-260!

### 12 backlighting modes

Multi-color interactive RGB backlighting will make your SVEN speaker the soul of any event. It offers as many as 12 modes, so you'll liven up any meeting by selecting the perfect lighting! The device also looks stunning in the dark. Enjoy a unique atmosphere at any party.

The PS-260 can also imitate the flickering flame of a large candle or bonfire. It works wonderfully as a night light source, gently illuminating the space - whether accompanied by music or not.

#### Reliable connection

Bluetooth technology will allow you to enjoy a reliable connection with your device over a distance of up to 10 meters. Simply pair your phone with the acoustic system to freely listen to your favorite music, podcasts or audiobooks. What's more, you can open up a new dimension of sound with TWS technology, allowing you to wirelessly connect 2 speakers to a single sound source. The powerful sound and interactive light show will create moments you will long remember.

#### Multiple playback options

Save your favorite songs to a USB drive or microSD card to enjoy their sound without having to connect additional devices to the speaker! The PS-260 also offers a built-in FM receiver - so you can choose a radio station and delight in a variety of music throughout the day. The antenna in the form of a cable, connected to the AUX jack, provides exceptional reception quality. Listen to music the way you like it, using the full potential of the speaker!
