

## Speakers SVEN PS-650, 50W Bluetooth (black)

Speakers SVEN PS-650, 50W Bluetooth (black)

Ref: 6438162018450

SVEN PS-650 Speakers, 50W Bluetooth (black).

The Sven PS-650 is a sensational party speaker that brings a lot of fun to the party. It has integrated LED lights that will transport your party into a world of colorful RGB lights that you can customize. Want to enhance the entertainment for your guests? You can connect a microphone to the PS-600 speaker and adjust the sound on the control panel, giving your friends a chance to show off their talents. The speaker also has a built-in equalizer so you can achieve perfect sound. You can play music from a variety of sources - via cable, from a flash drive, microSD card or via Bluetooth from a smartphone. In addition, the TWS feature allows you to wirelessly connect to two speakers at the same time, which adds spatialization to the sound.

Light up your party with the PS-650

Your party is in for an interactive light show that makes an impression! These effects are visible even during the day, but it's at night that they become truly stunning. The PS-650 speakers are equipped with backlighting that creates an amazing atmosphere. You have the option to choose from several modes to add a variety of sensations and feelings to your party.

Get carried away with the music

Unleash your hidden musical talent by hosting an unforgettable karaoke party! Just plug the microphone into the speaker and let the music carry you away, singing with your guests. With the control panel, you can adjust the sound level and add an echo effect to

emphasize the clarity and depth of your voice. Sing your favorite songs with family and friends, creating unforgettable memories. To make the equipment easy to carry, the kit includes a convenient, lightweight strap that lets you carry the speaker from place to place with ease.

#### Wireless connection

Thanks to Bluetooth technology, you have the ability to transmit audio wirelessly - easily and quickly connect to the speaker, up to 10 meters away! Now you can turn on your favorite podcast, listen to an audiobook or just relax with your favorite tune with the PS-650. Powerful sound with crisp bass and clear highs is delivered by two speakers - one for low frequencies and one for high frequencies. For an even better effect, you have the option to adjust the sound with the equalizer. Now you can enjoy music your way.

#### Play it the way you want it to be played

The SVEN PS-650 is a device that offers a wide range of music playback options. You can choose to play via cable, from a flash drive, from a microUSB card, or via a stable Bluetooth connection, which allows you to stream audio wirelessly. In addition, you have the option to listen to the radio and have rhythmic fun with your favorite stations. It's worth noting that the cable connected to the AUX port acts as an antenna. The built-in LCD screen on the control panel provides information on station frequency, volume level, song duration, as well as the ability to search for a song number and select light mode and many other features.
