Speakers SVEN PS-770, 100W Bluetooth (black)

Turn up every party. The SVEN PS-770 speaker delivers powerful, clear sound, and with its colorful RGB backlighting, it helps you create an unforgettable atmosphere. It also allows for connecting 2 microphones (not included) - perfect for karaoke parties. It supports various connection methods, such as cable or Bluetooth, and comes with a convenient remote control included in the package. The device also features a built-in FM receiver and a small LED display.

Dynamic Backlighting

Want to create a fantastic atmosphere at your party? The PS-770 speaker makes it easy! The device stands out with dynamic RGB backlighting that gives it a unique character. You can choose from several lighting modes - find the one that suits your taste the most!

Play Music from Various Sources

The speaker allows you to play music in various ways. For example, you can connect wirelessly via Bluetooth - the Bluetooth connection ensures stable transmission and unmatched freedom. NFC technology is also available, which further speeds up and simplifies pairing. The PS-770 model also supports microSD cards and USB drives. You can also connect your chosen device using the included cable. Note: NFC technology is only available for Android devices (version 4.1 and newer).

Excellent Sound Quality

Enjoy amazing sound at every party. The speaker is equipped with 38mm and 145mm drivers, allowing it to deliver clear, crisp highs and deep, powerful bass. It also boasts an output power (RMS) of up to 100W and a frequency response of 40 Hz - 22 kHz. All of these elements contribute to an incredible audio experience. You can also connect 2 speakers to achieve powerful stereo sound! Let the music take you away and have a great time. An equalizer is also available for your use.

Convenient Operation

The package includes a practical remote control, allowing you to conveniently operate the speaker from a distance. You no longer have to approach the device to adjust the volume or change selected acoustic settings, for example! The PS-770 model also features a built-in LED screen that displays information such as the current sound source or the time.

Something for Karaoke Fans

Invite your friends to a karaoke party and show off your vocal skills. The speaker allows you to connect up to 2 microphones, so you can sing your favorite song solo or invite someone for a duet. A special echo effect is also available - adjust it to your needs and enrich the sound of your voice! Note: Microphones are not included in the package.

Radio Listening Option

Don't have any music source at hand? Or perhaps you prefer to listen to the radio? The SVEN speaker is also perfect for such situations! The device is equipped with an FM receiver, so you can tune in to your favorite radio station anytime and discover what's new.

Additional Features

Heading to the beach or a barbecue with friends? Take the speaker with you! The dimensions of the device are 250 x 260 x 660 mm - it will easily fit, for example, in the trunk. The PS-770 model also comes with a practical handle that makes carrying it easier. Moreover, the efficient 4400 mAh battery ensures a long working time. No need to worry about the speaker running out of power too quickly and spoiling your fun!
