Speaker SVEN SPS-702, 40W (black)

Discover previously unknown details of your favorite songs. SVEN SPS-702 speakers provide excellent sound quality and are equipped with user-friendly knobs that allow you to adjust the volume, bass, and more. They also allow headphone connection. They are distinguished by a wooden enclosure (MDF) that gives them an elegant, classic character.

Enchanting Sound

What makes the SPS-702 speakers sound so good? Excellent sound quality is achieved by a 19mm high-frequency driver, a 100mm low-frequency driver, and a bass reflex. The noteworthy output power (RMS) is at the level of 40W, and the frequency response is 40 Hz - 22 kHz. Thanks to all of this, the speakers will surprise you with rich details and excellent harmony - let yourself be carried away by music and rediscover your favorite songs!

Thoughtful Design

The speakers are equipped with an enclosure made of MDF board, giving them a classic, timeless character. They fit perfectly into almost any arrangement! Their dimensions are only 143 x 265 x 150 mm - you can easily place them on a shelf, cabinet, or table. Moreover, the speakers weigh only about 4.2 kg, which significantly facilitates their possible transportation. Their additional advantage is the non-slip pads that prevent them from moving on various surfaces.

Wide Compatibility

To connect the speakers to your chosen device, use the cable included in the set. The SPS-702 model is compatible with most devices such as computers, laptops, DVD players, CD players, and more. You can also connect headphones to it, for example, to listen to music freely at night without disturbing other household members.

Complete Control

Take control and adjust the sound to your expectations. The speakers are equipped with user-friendly knobs that allow you to conveniently adjust the volume, bass, and high tones. Emphasize the most interesting aspects of your favorite musical genres, achieve perfect sound, and derive even more joy from listening to music!
