

Speakers SVEN 320 USB (black)

Speakers SVEN 320 USB (black)

Ref: 6438162014636

SVEN 320 USB Speakers (black).

SVEN 320 are small elegant speakers with powerful bass that are perfect for your desk at the office or at home. They take up very little space, and deliver high quality sound thanks to their 60mm speakers. They will provide a great experience for training, remote meetings, watching TV series, playing games or listening to music.

Wide frequency range

The speaker's frequency range, which is 80 to 20,000Hz, provides a versatile sound that includes both deep bass and clear highs. This means that no matter what kind of music you're listening to, these speakers are able to reproduce every nuance of sound and provide a great listening experience.

Solid performance

SVEN 320 speakers are not only very good in terms of sound, but also solid in terms of workmanship. The housing, made of durable ABS plastic, ensures that the speakers will survive long hours of playback and accompany you through many seasons of musical adventures. The black finish adds to their elegance, matching a variety of interior styles.

Elegant design

The minimalist cabinet is not only sleek, but also easy to clean - a quick wipe down of the speakers will restore the impression of newness. The design of the speakers features a positioned volume knob surrounded by an LED ring that glows blue - this will knock the knob down for easy location at night.

Dimensions

The SVEN 320 have a compact size of only 76 x 175 x 72mm, which means they will take up little space on your desk. In turn, their 580g weight allows them to be easily carried when needed.
