Speakers SVEN 330 USB (black)

Looking for computer speakers that will provide you with excellent sound quality and allow you to immerse yourself even more in your gaming experience? SVEN 330 will be an excellent choice! Thanks to the 45mm drivers, they can offer clear, ear-pleasing sound, and the dynamic RGB backlighting gives them a unique character. The speakers are also very easy to use.

High Sound Quality

Elevate your gaming experience to a higher level. The 330 speakers are equipped with 45mm drivers, and their output power (RMS) reaches 5W. They also feature a frequency response of 90 Hz - 20 kHz. All of this allows you to enjoy high-quality sound and rich details, leading to greater immersion. Immerse yourself in the gameplay and achieve more fantastic victories!

Convenient Control

Enjoy convenient sound control. There is a dedicated knob on the front of one of the speakers that allows you to adjust the volume at any time - now you have the most important functions at your fingertips! Furthermore, the devices are powered via USB - simply connect them to your computer or laptop.

Stunning Design

SVEN speakers will not only provide you with excellent sound quality but also adorn your desk. They are equipped with dynamic RGB backlighting, which you can switch using the appropriate button. This way, you can easily create a fantastic atmosphere in your gaming zone! Additionally, the speakers are made from durable ABS material, making them very sturdy and impressive.
