

Mini Silicone Electric Sonic Facial Brush ANLAN ALJMY04-04 (

Mini Silicone Electric Sonic Facial Brush ANLAN ALJMY04-04 (pink)

Anlan Mini electric facial brush

The small, ultrasonic Anlan Mini electric facial brush works at up to 12,000 revolutions per minute to effectively cleanse your complexion. With 3 types of cleaning tabs and 5 modes of operation, the device is perfect for all skin types. The long working time and ergonomic design make it incredibly comfortable to use the product.

Complete cleansing

The brush is equipped with 3 types of gentle, skin-friendly, cleaning tabs. They are responsible for deep, general and precise cleansing, respectively. All this adds up to an effective and comprehensive skin care. With the Anlan Mini electric facial brush, you will thoroughly cleanse your face and restore its fresh, beautiful appearance.

Applicable to all skin types

Choose from 5 available modes to get the most out of your brush. Speeds 1-2 are great for delicate skin that needs special care. Speed 3 is the standard mode ideal for everyday use. For oily skin, speeds 4-5 are good for deep cleansing. What's more, the brush remembers the last used mode and when you use it again, it starts it automatically.

Ref: 6953156299627

Reliable battery

The device's powerful lithium battery guarantees a long runtime. After one full charge you can use the brush up to 400 times! So you don't have to worry that it will refuse to work when you least expect it, for example, during a trip. Mini electric facial brush by Anlan will certainly not let you down.

Efficient, ergonomic and functional

Thanks to ultrasonic technology, the brush can run at very high speeds, resulting in increased efficiency. With a light weight of 85g and compact size, you can conveniently take it anywhere with you. The device fits perfectly in your hand and is comfortable to use. In addition, the brush is IPX7 water resistant, which means you can also use it in the bathroom without worry.
