

Electric Callus Remover for Feet LED Liberex

Electric Callus Remover for Feet LED Liberex

Ref: 6931446930559

Electric callus remover for feet by Liberex

Are you tired of dry, calloused heels? Are you afraid that you will accidentally tear your tights because of them? Or maybe summer is approaching and you want to restore your feet to a beautiful appearance so that you can wear flip-flops and sandals without complexes? The Liberex electric callus remover is the perfect choice for either situation. As many as 4 interchangeable tips, 2 speeds and fast charging via USB, which takes only 3-4 hours - enjoy these and many other advantages of this practical device.

2 types of rollers included

In the package you will find as many as 4 rollers - 2 rough and 2 fine. The first one will prove useful in the case of larger scrapes and very dry skin. You can use it to restore the former shine to your heels. The second type of rollers use every day, to remove callus on an ongoing basis. Liberex electric callus remover is a versatile device that will meet the diverse needs of users.

Choose the right speed for you

Customize the operation of the device to your needs. The low speed of 1700x/min. is suitable for everyday use and helps prevent the build-up of callus. The high speed of 2000x/min. is suitable for more difficult, demanding cases.

Long runtime - fast charging

The durable 1200mAh battery provides a run time of about 120 minutes. The callus remover supports fast charging, so you don't have to wait forever for it to be ready for use again. What's more, you can connect the USB cable not only to the charger. It is also compatible with a powerbank, laptop or computer. You can also charge the device in the car! The battery level is displayed on the built-in screen.

Safety and convenience of use

The device is convenient and safe to use. If the pressure is too much, it will shut off automatically to protect you from damaging your healthy skin. The built-in LED light turns on as soon as you start the grater, making it easy for you to perform the treatment. The device is also compact and lightweight, weighing only 240g. Thanks to its ergonomic design, it fits perfectly in your hand and does not slip, allowing you to operate it comfortably.

Fearless of water

This device has an IPX6 water resistance rating, which means that accidental splashing doesn't pose much of a threat to it. So you can use it in the bathroom without any worries. It is suitable for both dry and wet use. The head of the device can also be washed under running water - this way you will take care of hygiene and keep your callus remover in excellent condition for a long time.

The easy way to beautiful, smooth heels

Applying the device is fabulously easy. Wash your feet or soak them in hot water for about 10 minutes, then pat them dry. Choose the appropriate tip and speed, then gently remove the callus. Afterwards, make sure to moisturize your heels properly, and if you want to enjoy even better results, massage them slowly.
