

## Carlinkit U2W MINI wireless adapter Apple Carplay (white) Carlinkit U2W MINI wireless adapter (white)

The Coeffelia HOW Minimized and a deather

The Carlinkit U2W Mini wireless adapter.

Carlinkit U2W Mini is a campy adapter that allows you to connect via your phone via USB to your car screen with built-in CarPlay to use apps wirelessly! With this device, you can use your favorite apps such as navigation on your car screen to make your trip more enjoyable for you and your passengers. You can easily use the Siri assistant to check the weather for you, call the person of your choice, turn on music, etc. while you keep your hands on the wheel and focus on the road. Carlinkit U2W Mini is a tiny device that will make your trip easier!
