

Carlinkit TBOX MINI wireless adapter Apple Carplay/Android A

Ref: 5905316148666

Carlinkit TBOX MINI wireless adapter (black)

The Carlinkit TBOX Mini wireless adapter.

The Carlinkit TBOX Mini is a wireless connectivity module based on the Android 9.0 operating system, which allows you to use Apple Carplay and Android Auto wirelessly, as well as a range of multimedia functions such as music playback and Bluetooth calling, SD card playback, etc. With Carlinkit, you can operate the Android 11 operating system on the screen in your car. This includes wireless app management, Bluetooth music playback and calling, and SD card playback, allowing you to access all the most important functions while driving.

Software and internal components

The Carlinkit TBOX Mini is equipped with USB-C ports, an SD card slot and a SIM card slot, giving you a variety of options for connecting your devices. It is compatible with smartphones running iOS 10 and later versions, and Android 10 and later versions. It uses Bluetooth 4.2 and 5.0 for wireless connections. The Android 11.0 operating system and the powerful Qualcomm QCM2290 ARM Cortex-A53 Quad Core 64-bit CPU, up to 2.0GHz 11nm, guarantee smooth operation. It runs on 2.4G 5G WiFi network, which guarantees high-speed Internet access. Its small size (79.8 x 79.8 x 14.7mm) makes it easy to install and does not take up much space.

Features

Thanks to the Android 11 operating system, the device allows you to download a large number of apps from the Play Store so you can

have all the most important functions at hand in your car. You can use CarPlay, Android Auto and the built-in GPS wirelessly, but also make Bluetooth calls, watch video or play music, and more!

The set includes

Adapter x 1

USB-C to USB-C cable x 1

USB-C to USB-A cable x 1
