Wireless Mechanical keyboard Motospeed SK62 White (red switch)

Motospeed SK62 Wireless Mechanical Keyboard (red switches).

Looking for a keyboard that works equally well for work and gaming? Motospeed SK62 will be perfect for you! It stands out with up to 3 different connectivity options, and what's more, it will delight you with its colorful RGB backlighting. Its working time reaches up to 260 hours, so it will be ready to use whenever you need it! It is also extremely comfortable to use, thanks to its ergonomic design and 61 keys with red switches.

### Great compatibility

The Motospeed keyboard was created with different user needs in mind. It is distinguished by its ability to conveniently switch between multiple devices. It can store as many as 3 Bluetooth devices, between which you can quickly switch with the corresponding keys. It works perfectly with computers, laptops, phones and tablets, and is universal for many systems.

### Various connectivity options

Use your keyboard the way you like it best! It gives you up to 3 different connectivity options. Want to free yourself from unnecessary cables? Choose connections using Bluetooth 5.0 or a 2.4G connection. If you rely on traditional solutions, just use a wired connection via a USB-C cable. With this solution, there is something for everyone!

### Long working time

Are you using a Bluetooth connection? Don't worry about a quick loss of power! Motospeed keyboard is equipped with a 1300 mAh battery, so it can provide a long working time. With the RGB backlighting on, it can work for 50 hours, while with it off, it can work for up to 260 hours! Don't worry if its energy runs out, as you can easily renew it in as little as 3 hours using a USB-C cable.

### Colorful backlighting

The Motospeed SK62 keyboard is equipped with colorful RGB backlighting, which gives it a unique character. There are up to 16.8 million colors to choose from! It also has more than 10 types of adjustable dynamic backlighting effects, so you can choose the perfect one for you. For even more color fun, it also supports custom modes.

### Comfort of use

The Motospeed SK62 is designed to provide the comfort of your dreams. The ergonomic design will guarantee maximum comfort during hours of work in front of the computer. It also offers function keys that allow you to switch between Bluetooth-paired devices or change backlight settings. What's more, the SK62 is equipped with 61 keys that use red OUEMU switches. They stand out for their exceptionally quiet operation and allow for faster and precise responses when playing games.
