Wired earphones EarFun EH100 (silver)

Ref: 6974173980350

### Wired Headphones EarFun EH100 (Silver)

Experience your favorite tracks in high-quality with EarFun EH100. The headphones provide impressive sound, certified by Hi-Res, thanks to built-in dynamic and armature drivers. Additionally, you will find extra rings in the set, enhancing the bass for even better results. Furthermore, the headphones ensure long-lasting comfort, and with the interchangeable silicone covers, you can customize them to your needs.

### Sound Full of Details

Feel like you're at a concert of your favorite artist. The EarFun EH100 utilize a 10-millimeter bio-diaphragm and armature drivers (6.8 mm), resulting in crystal-clear, ear-pleasing high and mid-tones, and deep bass. Moreover, the magnetic design enhances sound resolution.

### Customize the EH100 Sound

Adapt the sound of EarFun EH100 to your liking. The headphones use black rings (default mounted), providing gentle bass, natural mid-tones, and smooth high tones. Meanwhile, the red rings included in the set offer vivid bass, giving depth to tracks. Choose the right version for yourself!

### Long-Lasting Comfort

Enjoy unparalleled comfort with EarFun EH100. The headphones stand out with their ergonomic design, allowing you to use them for extended periods without feeling fatigued and uncomfortable. Moreover, they are exceptionally light – each headphone weighs 8.6 g. Additionally, you can hook the flexible cable behind the ears for greater stability.

### Refined Construction

Zinc alloy was used in the production of the headphones, along with CNC engraving and manual polishing processes, translating to a solidly built product. Moreover, the silver-plated copper wire and gold-plated connector ensure durability and better signal transmission.
