Earphones TWS OneOdio OpenRock S (black)

Take your favorite music with you during your workout with the OneOdio OpenRock S earphones. These earphones feature an open design for unmatched stability, making them perfect for activities like running. The 16.2mm dynamic drivers deliver deep bass, and the built-in microphones reduce ambient noise, allowing you to have clear phone conversations. Moreover, they can work for up to 60 hours with the charging case and only require about 1.5 hours to charge.

Perfect for Active Lifestyles

If you enjoy listening to music during your workouts, the OneOdio OpenRock S is an excellent companion. They have an open design that won't cause ear discomfort during extended use and are perfect for situations where you want to be aware of your surroundings. With skin-friendly silicone ear hooks, they won't fall out, and you can easily adjust their position to your needs. These earphones are also water and sweat-resistant with an IPX5 rating, so you can use them worry-free even during intense activities.

High-Quality Sound

Immerse yourself in the world of music with the OpenRock S. These earphones use TubeBass technology, resulting in rich bass tones. Furthermore, they are equipped with 16.2mm dynamic drivers. A special audio algorithm dynamically adjusts low and high tones for the best sound quality. The well-engineered construction also minimizes sound leakage. You can also choose from 2 modes: Rock and Relax

to tailor their performance to your preferences.

Up to 60 Hours of Playback

No need to worry about your earphones running out of battery too quickly. The OneOdio OpenRock S can play music for up to 19 hours on a single charge. With the charging case, the total product runtime extends to 60 hours. Fully charging the earphones takes approximately 1.5 hours. You can even charge them for just 5 minutes to enjoy your favorite music for an hour.

Noise-Reducing Microphones

Stay connected with your loved ones during your workouts, walks, or other activities. The OneOdio OpenRock S earphones feature 4 microphones that use AI-based noise reduction to eliminate external sounds. This allows for clear and loud phone conversations, ensuring that your caller can hear you clearly.

Simple, Intuitive Controls

You don't need to reach for your smartphone to answer calls or skip tracks. You can pause/play, activate voice assistants, reject/end incoming calls, and switch between Rock and Relax modes all from the touch panels. Enjoy the convenience offered by the OpenRock S model!
