

Helmet mount Telesin for sports cameras (GP-HBM-MT2)

Ref: 6972860171265

Helmet mount Telesin for sports cameras (GP-HBM-MT2)

The Telesin GP-HBM-MT2 helmet mount

The helmet mount for sports cameras and phones will allow you to create even more interesting shots. Made of high quality materials - it will surprise you with its durability. An additional layer of silicone and anti-slip tabs provide exceptional stability. Foldable and rotatable design of the product enables comfortable and secure mounting on any type of helmet. The Telesin brand mount is also compatible with a range of sports cameras and phones.

Perfectly thought-out design

The mount is shaped like a moth, and both of its "wings" can be folded. This way you can fit it even better to the shape of your helmet. Velcro attachment allows for simple yet stable mounting. The camera is mounted using a durable hinge made of stainless steel and PA66 nylon.

Wide compatibility

The product is distinguished by its huge compatibility, which will make it work in many applications. Using the mount, you can attach a GoPro or Osmo camera to your helmet. The accessory also fits Insta360. You can also mount your smartphone on it - however you will need an additional clip for your phone.
