

Imou Cell Go Portable Battery Camera (white)

Imou Cell Go Portable Battery Camera (white)

Ref: 6971927233663

Imou Cell Go Portable Battery Camera (white).

Imou Cell Go is a portable battery camera that is suitable for both indoor and outdoor use due to its IP65 protection. The device is small and easy to use - it can be used as a surveillance camera, but also as a camera for recording selected moments thanks to Cell Go's vlog function. The built-in 4GB eMMC memory card and the cloud, free for a year, are places where you can store your recordings. It's also an option to upload them directly to your phone when you connect to it. This feature is also particularly useful if you want to install the camera in a basement or other place without internet access. Installation is instant and very simple. Artificial intelligence-supported person detection boasts a 99% success rate, so you can rest assured about your loved ones and your possessions. In addition, the camera has a microphone and speaker, as well as a built-in voice changer, in case you want to remain anonymous to those you speak to.

Ease of Installation and Use

With ease of use in mind, the Imou Cell Go is designed to make installation instant and intuitive. The camera has a built-in 5000mAh battery, which makes it work stably for a longer period of time. Also noteworthy is the fact that the camera can be connected directly to your phone, allowing you to send recordings even in areas without Wi-Fi coverage.

Storage Options and Access to Recordings

The Imou Cell Go offers several recording storage options, adding to its versatility. You can use the built-in 4GB eMMC memory card or

the cloud, which is free for a year. These options are particularly useful for those who want to make sure their data is safe. In addition, the function of transferring recordings to your phone when you connect to it makes it extremely easy and convenient to access your saved materials.

Resilience and Two-Way Communication

The Imou Cell Go camera is IP65 certified, making it ideal for both indoor and outdoor use. It can operate in harsh weather conditions such as rain or wind, and is also dust-resistant. The camera is also equipped with a microphone and speaker for two-way communication. If you are concerned about maintaining anonymity, you can use the built-in voice changer. The Cell Go can operate in 6 different modes to match conditions perfectly. Mode: standard, high performance, economical, continuous recording, VLOG and custom mode
