Speaker HiFuture EVENT Bluetooth (black)

HiFuture EVENT Bluetooth Speaker (black)

Let yourself be enchanted by the sounds. The HiFuture EVENT speaker features a dual DSP signal processor and multiple audio inputs, resulting in an uncompromising sound experience and wide compatibility. It also supports Bluetooth version 5.3. The Bass Boost function adds depth and power to every song, while dynamic RGB lighting effects help create a unique atmosphere. In addition, the device will work well as a powerbank and can be paired with another speaker in a stereo system.

Sound that delights

The EVENT model is equipped with a 50-watt woofer and a 30-watt tweeter to deliver extraordinary sound that stands out not only for its clarity, but also for its full range of sound. Thanks to the dual DSP processor and multiple audio inputs, every note and rhythm comes to life in perfect harmony. From now on, you can enjoy music in the highest quality, hear every detail and feel every rhythm, whether you're at home, at the beach or at a party.

Even more powerful bass

With Bass Boost, the HiFuture EVENT speaker will take your musical experience to a new level, delivering powerful and richly detailed sound. Optimized airflow and precise adjustment of the bass port to the design of the device has minimized sound distortion, and a specially designed opening further enhances sound quality. The rugged 8mm thick PS plastic housing minimizes acoustic resonance. The

speaker also dampens vibrations, resulting in soft and dynamic bass. Get ready for exceptional depth and experience your favorite songs anew!

Expand your musical horizons

The HiFuture EVENT speaker allows you to connect to a wireless stereo system, which translates into double the sound enjoyment. Now you can enjoy full sound in an even more exciting way. Pair the device with another speaker from the same series and create an immersive symphony that fills the entire room, surrounding you with sonic magic. This is the perfect opportunity to experience music in its full splendor and share the experience with friends and family.

A feast for the senses

Create an amazing atmosphere. The HiFuture EVENT speaker offers RGB backlighting to kick off any party in an exciting way. Combine the sound of your favorite songs with a light show and party like never before!

Solutions for your convenience

You don't have to worry about having to charge the speaker frequently. It is equipped with a lithium-polymer battery with a capacity of 4,000 mAh, which provides a satisfactory working time. You only need about 4 to 5 hours to renew the device's energy. In addition, the EVENT model uses Bluetooth in the latest version 5.3, so you can always enjoy stable and fast transmission. But that's not the end of the conveniences - thanks to the thoughtful design, you can freely place the speaker anywhere, even on a stand!
