Vention Network Cable, Ethernet RJ45, Cat.6, UTP, 3m (Black)

The Vention network cable with an Ethernet RJ45 plug, Cat.6, UTP, 3m in length, is an essential foundation for your home or office network. Designed with challenging conditions in mind, the cable is equipped with a 90-degree connector, making it ideal for tight spaces where access is limited.

Well-Chosen Core

Featuring a core made of 4 UTP 32AWG copper twisted pairs, the Vention cable minimizes the impact of electromagnetic interference, resulting in a stable and reliable connection. Additionally, the number of twists per inch has been chosen to minimize crosstalk, ensuring optimal performance.

Thoughtful Design

The cable has been tested with a bandwidth of 500MHz, making it an ideal choice for 10-Gigabit Ethernet, allowing fast and smooth data transmission. The contacts are gold-plated, making them resistant to corrosion and wear, ensuring a clean signal for a long time. A unique feature of the Vention cable is the ability to rotate the connector 360 degrees around its own axis. Thanks to this, the connector will perfectly fit the place where it is plugged in, providing additional user comfort.
