IMOU Turret SE 1080p H.265 Wi-Fi outdoor camera

Keep your finger on the pulse and feel safer in your home. The IMOU Turret SE camera captures video in 1920 x 1080p resolution, and with Night Vision it provides high-quality images even at night. What's more, the device detects motion - when someone comes within its range, you'll receive a notification on your phone. You can also save the recordings in various ways - for example, to the cloud or to a microSD card (up to 256 GB).

High image quality

You won't miss a single detail with the Turret SE. The camera provides clear, detail-saturated images so you can see even more. The device also supports the H.265 codec, allowing you to save high-quality recordings that take up less storage space. There's also a Night Vision function, which allows for seamless monitoring at night as well. Enjoy security around the clock!

Detects motion

No longer do you have to worry that an unauthorized person might be hanging around your home without you knowing about it. The Turret SE camera detects motion - if someone comes within its range, you'll get an instant notification with a surveillance photo. You can also set a detection zone using the app.

Various options for saving videos

The camera also allows you to save video - so you can view the surveillance recording at any time, and share it with other family members or co-workers. You no longer have to worry about losing important evidence! The Turret SE model supports NVR and microSD cards of up to 256 GB. You can also save video to the cloud - along with the camera you get free access for 30 days.

Additional amenities

Forget about signal quality problems - the camera connects via Wi-Fi (2.4 GHz) for fast, stable and reliable transmission. In addition, the device has a built-in microphone, so it can record not only video, but also audio. Keep everything under control and be assured that you won't miss anything important!
