

## Solar panel IMOU FSP12 for Cell 2, Cell Go

Ref: 6971927233601

Solar panel IMOU FSP12 for Cell 2, Cell Go

IMOU FSP12 solar panel for Cell 2, Cell Go cameras

Imou's solar panel is the ideal solution for powering your Imou Cell 2 and Cell Go cameras. Thanks to its compatibility with these camera models, you can enjoy reliable power without having to replace batteries. The panel has compact dimensions of 120 × 180 × 2.5 mm, making it easy to mount anywhere.

High power

The maximum power of the solar panel is 3 W, which provides enough energy to power the cameras in various weather conditions. With an IP65 rating, the device is weatherproof, making it suitable for outdoor use without worrying about damage.

Comfort of use

The Imou panel is easy to install, and the connection to the camera is made via a Micro USB connector. It's a convenient and reliable power source that allows you to enjoy continuous surveillance of your surroundings without worrying about running out of power. With the Imou solar panel, you can save money on batteries and contribute to environmental protection by using solar energy.

□Manufacturer

□IMOU

- Model
- FSP12
- Compatibility
- Cell 2, Cell Go cameras
- Dimensions
- 120 × 180 × 2.5 mm
- Open circuit voltage
- 7,4 V (-5%/+10%)
- Short-circuit current
- 0,508A (-5%/+10%)
- Solar panel operating voltage
- 6,2 V (-5%/+10%)
- Operating current
- 0,484A (-5%/+10%)
- Solar panel power
- Maximum power (Ppm) 3 W (-5%/+10%)
- Operating temperature
- -20°C to +60°C
- Storage conditions
- Temperature -20°C~45°C, Humidity
