

## Action camera mount PGYTECH three-arm Suction Cup

Ref: 6976100482371

Action camera mount PGYTECH three-arm Suction Cup

### PGYTECH Three-Arm Suction Cup Mount for Action Cameras

Capture dynamic shots from various perspectives! The PGYTECH mount features three arms with strong suction cups that provide essential stability to the entire structure. You can easily attach it to various surfaces, and with the 360-degree rotation capability, you have full control over the camera's angle. Its lightweight and portable design make it easy to carry.

### Wide Compatibility

Forget about compatibility issues! In the package, you'll find various accessories that make mounting your devices even easier. You can use this mount without any obstacles with your phone or action camera.

### Unique Shots

With PGYTECH, creating breathtaking shots is easier than you think. The mount is equipped with a double ball joint that allows for a 360-degree adjustment. This allows you to position your camera just the way you need it!

### Stable Mounting

The PGYTECH mount comes with three arms with suction cups that you can adjust within a 45-degree range. You can easily attach it to any location, such as a car body, window, or any flat surface.
