Ref: 6976100482449

PGYTECH Protective Cover for DJI RC/RC2 Controller (P-45A-020)

This cover is made from flexible and durable TPU material. It ensures the safety of your controller during both transportation and storage, so you don't have to worry about damaging your equipment. Additionally, its installation is hassle-free.

Effective Protection

Now you can be confident that your DJI RC/RC2 controller is shielded from damage. This product protects the controller's screen from scratches or cracks. It also covers the control sticks and function buttons, preventing accidental device activation.

Custom Fit for Your Controller

The cover is made from flexible TPU material, making installation easy. Furthermore, it is optimally designed to match the shape of the controller, ensuring that your controller is safe and protected from damage.
