

## Parking heater HCALORY M98, 8 kW, Diesel, new version

Ref: 5905316148253

Parking heater HCALORY M98, 8 kW, Diesel, new version

### Parking heater / heater HCALORY M98

HCALORY M98 is a diesel-powered heater with which you can quickly heat the interior of your garage, car or heat your windows to get rid of snow and ice more efficiently. The heater operates quietly to ensure comfortable conditions on the road. It warms up even at temperatures from -40°C and operates at temperatures up to 50°C.

### Intuitive operation

With its LCD panel and five-button operation, the HCALORY M98 is a device that even less experienced users will not find difficult. The panel allows easy monitoring and control of the device's operation, and the included remote control with a range of up to 50 meters further enhances the user experience. The use of technology not only makes it easier to manage the heater's functions, but also supports the efficiency and safety of its operation by informing about error codes. You can easily choose the right power between 5 and 8KW and adjust the temperature from 8 to 35°C or set a timer to turn the device on or off after a set time.

### Energy efficiency

The HCALORY M98 offers low fuel and electricity consumption while providing high operating efficiency. With the ability to regulate and control consumption, this heater ensures that it is an economical and wallet-friendly solution, while allowing you to take care of the environment by minimizing emissions and consumption. The unit has built-in overheating protection technology that automatically cuts

off the voltage if the temperature becomes too high.

#### Quiet operation with effective performance

The heater not only efficiently heats the selected space, but also does so in a way that is not disruptive to the user and the environment. Advanced noise reduction technologies make its operation unobtrusive and unobtrusive, which is especially important during long trips or nighttime working hours. The low noise level that the device generates is therefore a guarantee of comfort, not only thermal, but also acoustic.

#### Ease of installation and maintenance

Compact design and intuitive installation are other advantages of the HCALORY M98 heater. As a result, it is possible to install the device in a variety of even confined spaces, making it a versatile solution for a variety of motor vehicles - from cars to buses to trucks or engineering vehicles. In addition, ease of cleaning and maintenance, including the ability to remove the fuel pump, makes this model a user-friendly ally.
