

## Car jump starter Blitzwolf BW-JA1 16000mAh

Car jump starter Blitzwolf BW-JA1 16000mAh

Ref: 5905316148352

### Blitzwolf BW-JA1 16000mAh Car Starter with Compressor

Blitzwolf BW-JA1 is a car starter with a compressor and a flashlight that can also serve as a 16000mAh power bank. With a peak current of 2000A and strong clamps, it can start your vehicle in just a few seconds, even in extreme temperatures ranging from -20°C to 60°C. Whether you have a gasoline or diesel engine up to 8.0L in capacity, this starter ensures reliability and support in critical situations. It is also suitable for 12V vehicles, especially heavier ones, providing versatility and confidence even on challenging journeys.

### High-Performance Compressor

The Blitzwolf BW-JA1 not only impresses with a maximum pressure of 150 PSI and an airflow of 45 l/min but also ensures user comfort and convenience. It takes just 3 minutes to fully inflate a car tire (0-36 PSI), and in everyday situations, only 1 minute to adjust the pressure from 25 to 36 PSI. However, please note that it does not support truck tires. Advanced features such as intelligent presets and automatic shutdown make operation intuitive and hassle-free. With the included adapter kit, you can also inflate bicycle tires, air mattresses, or water toys for children.

### Practical High-Capacity Power Bank

In addition to the compressor and starter functions, the BW-JA1 can also serve as a reliable 16000mAh power bank. It has two USB ports that allow fast and efficient charging of phones and other accessories. This feature is especially useful during long trips where access to

power sources is limited or in emergency situations on the road.

#### Lightweight and Compact

The Blitzwolf BW-JA1 combines compact dimensions and low weight, making it an ideal companion for any journey. With a weight of only 780g and dimensions of 220 x 95 x 89mm, this small yet efficient device takes up very little space, which is undoubtedly an advantage when it comes to limited space in your vehicle. Its small size allows it to be stored almost anywhere, from the trunk to the glove compartment, ensuring easy access in case of emergencies. Despite its compact design, it does not compromise on functionality and performance, providing support in various situations on the road.

#### Package Contents

- Clamps x 1 pair
- USB-C to USB-A cable x 1
- Air hose x 1
- Inflation adapter x 1
- Carrying case x 1
